

## IRC Emphasizes Education...Fulfill Knowledge...Toward Success

### Open House for Public Health Student's On-the-Job Training

Activities

22 August 2016

Inoue Rubber (Thailand) Public Co.,Ltd (IRC) has emphasized on educational support and experience transferring by providing On-the-Job Training to 4<sup>th</sup>-year student from Occupational Health and Safety Major, Faculty of Public Health, Thammasat University since August 22<sup>nd</sup> – October 17<sup>th</sup>, 2016.

The Company has paid attention on On-the-Job Training so that the students can usefully adapt or apply their knowledge to make benefits. Moreover, they can develop their skills and acquire real experience that they cannot face in textbooks or lab-classes.

Besides, the Company has supported the Faculty of Public Health, Thammasat University in environmental measuring training project under the supervision of Dr. Chaiyuth Chavalitnitikul, Dean of Faculty of Public Health and President of Safety and Health at Work Promotion Association (Thailand).

The Company hopes that this program will enhance the students' learning and skill in order that they can apply and develop their multifaceted knowledge from first-hand experience to be ready for their future careers.
