

Prototypes rubber athletics track dedication ceremony at Bangyeekan School

News

19 December 2015

According to supporting the Government policy, in dissolving rubber price crisis, Inoue Rubber (Thailand) Public Company Limited has developed a new prototype rubber for utility as athletics tracks sport stadium

and multipurpose court which made from natural rubber for Bang Yeekhan Vithayakom School. This prototype rubber was developed by IRC under industrial product standard quality control of the Department of Science Service. In the dedication ceremony, Dr. Pichet Dhurongkaweroj and administrators of the Ministry of Science and Technology were the representative to deliver the sport complex.

On behalf of Bangkok Governor, M.R. Sukhumbhand Paribatra was very grateful to this dedication.
